Statement from the Port Hedland Chamber of Commerce

On behalf of the committee, and members of the PHCCI, we want to be clear that the views and positions of any person who is a member of the PHCCI, and who is also a candidate in the upcoming Local Government elections, are not the views and positions of the PHCCI.

As expressed in the minutes of the PHCCI committee meeting minutes on 3rd October 2017;

Managing Secretary advised that he had received several comments regarding the position of President of the PHCCI in relation to his nomination for the Mayor of the TOPH, & the possible conflict that may be assumed. It was suggested that the President relinquish this position for the remaining three weeks, or make it categorically known by announcing that any comment he makes at any community function, he would make it well known that the comments made were his own, and had no reference to the Port Hedland Chamber of Commerce. The latter was agreed to by the committee.

This has not been adhered too.

We respect an individual's rights to have a view, and a position on any issue, however clarity must be made to ensure that there is no confusion, and that at all times the integrity, and the member driven nature of our Chamber is protected and upheld.

Arnold.A.Carter
Managing Secretary
